## Stay Golden!

**Gold Factor promotes youthfulness by:**

**Optimizing cellular vitality<sup>^</sup>:** Gold Factor acts as a cellular activator providing power when and where it's needed.\*

**Supporting mental acuity<sup>^</sup> and memory<sup>^</sup>:** Every drop of Gold Factor contains DNA sized gold particles that can activate your trillions of cells.\*

**Protecting DNA strands<sup>^</sup>:** The end structures of your DNA are called telomeres. Like end caps protect shoelaces, telomeres protect your DNA, but shorten as cells age. Gold Factor can help increase activity in these telomeres, helping your cells to remain more youthful.\*<sup>^</sup>
