# Why Care for the Brain?

The brain needs more energy  
than any other organ in the body.

References: Marcus E. Raichle and Debra A. Gusnard. Appraising the brain's  
energy budget, *PNAS* 2002: 99 (16) 10237-10239

# Why Care for the Brain?

- Today's modern lifestyle drains the brain and impacts cognition.
- The brain is affected by a general lack of sleep and liquid intake, constant use of electronics, stress, sugar, and diminished social interaction.
