

4Life Transfer Factor® Cardio

Features ten heart-healthy ingredients to support robust heart health and support against a modern, stressful lifestyle**

- Supports heart health, cardiovascular function, and circulatory function*
- Supports healthy blood pressure and cholesterol levels already in the healthy range*
- Educates and enhances the immune system*
- Positively affects eNOS levels, which are linked to nitric oxide production**
- Promotes antioxidant levels*

What Is 4Life Transfer Factor Cardio?

4Life Transfer Factor Cardio features ten heart-healthy ingredients to support robust heart health and protect against a modern, stressful lifestyle. This product also supports healthy cholesterol levels and blood pressure levels already in the healthy range. 4Life Transfer Factor Cardio also supports eNOS levels, which are essential for healthy blood circulation.* Plus, this product is powered by 4Life Transfer Factor® to optimize immune system function. Your immune system is the first line of defense for the cardiovascular system.*

Key Features

- Features vitamins B12, B6, and B9; magnesium; and selenium to support cardiovascular health*
- Provides coenzyme Q10 and resveratrol for antioxidant support against free radicals*
- Contains red yeast rice extract to support healthy cholesterol levels and heart health*
- Contains garlic bulb extract, which has been used for thousands of years to support cardiovascular health*
- Features a cardio-protective formula*
- Educates and enhances the immune system with 4Life Transfer Factor*

Did You Know?

Your cardiovascular health and immune system are closely connected. When there is an assault on your heart, your immune system is your heart's first line of defense. To help your immune system, your heart creates critical immune messengers. Your cardiovascular system and immune system make a great team! Support them both with 4Life Transfer Factor Cardio.*

Ingredients

Vitamin B6 (pyridoxine hydrochloride HCL) – Required for red blood cell formulation and supports macronutrient metabolism*

Vitamin B12 (cyanocobalamin) – Required for red blood cell formulation, is essential for energy production, and supports carbohydrate metabolism*

Folic acid (vitamin B9) – Helps formulate nerve tissue and red blood cells and supports metabolism of nucleic acids and amino acids*

Magnesium – Essential for healthy blood pressure and supports energy production*

Selenium – A potent antioxidant that fights oxidative stress in the body and supports the cardiovascular system*

Coenzyme Q10 – An important antioxidant that has been clinically shown to support heart health and eNOS levels**

Resveratrol – A polyphenol that protects against free radicals, supports the cardiovascular system, and boosts eNOS levels**

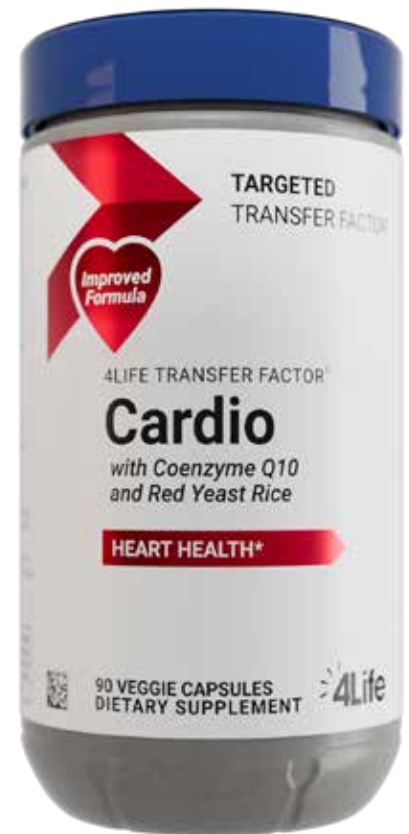

Ginkgo biloba extract – Supports healthy peripheral blood flow*

Red yeast rice extract – A clinically studied ingredient that supports cardiovascular health, healthy cholesterol levels, and healthy eNOS levels**

*As seen in a preclinical study.
