

enummi[®] Toothpaste

With 4Life Transfer Factor and Postbiotic

What Is enummi Toothpaste?

This gentle, fluoride-free formula cleans teeth without harsh, abrasive agents and freshens your breath with a great-tasting, naturally sweetened mint flavor. enummi Toothpaste features 4Life Transfer Factor and a patented postbiotic to support oral immunity and the oral microbiome. This daily-use toothpaste will keep you smiling all day!

Key Features

- **4Life Transfer Factor** – 4Life’s exclusive immune education molecule that supports oral immunity
- **Lactoferrin** – a natural bioactive compound from whey that supports oral immunity
- **Coenzyme Q10** – a powerful antioxidant that supports cellular health
- **Lactobacillus paracasei LPC-G110 Postbiotic** – supports oral health and a healthy oral microbiome
- **Hydrated silica** – a natural and mild abrasive that gently yet effectively cleanses teeth and removes stains without harming enamel
- Naturally flavored and sweetened
- Contains xylitol, which supports tooth health
- Fluoride free formula

Primary Support

- Freshens breath with an invigorating mint flavor
- Now features patented postbiotic
- Dissolves food film for a clean, bright smile

DIRECTIONS: Apply a small amount of paste to toothbrush and brush thoroughly two times a day (or more) or after each meal. Children ages 2 to 6 should be supervised to minimize swallowing.

INGREDIENTS: Sorbitol, Hydrated Silica, Purified Water, Glycerin, Flavors, Calcium Carbonate, Sodium Lauroyl Sarcosinate, Xylitol, Sodium Bicarbonate, Zinc oxide, Stevia, Carboxymethylcellulose, Lactobacillus paracasei, Sodium Benzoate, 4Life Transfer Factor™ (UltraFactor™, OvoFactor®), Coenzyme Q10, and Lactoferrin.

Recommended Use:

Apply a small amount of paste to toothbrush and brush thoroughly. Use two or more times daily or after each meal.
